Fetii is a group rideshare app that uses 14 passenger sprinter vans so you no longer have to split the group up into 2-3 vehicles. A Fetii can be called similar to the way you would call an Uber/Lyft – on demand in the app (or pre scheduled up to 30 DAYS in advance after adding the promo code **BATCITY**)

Fetii uses a QR code check in system so everyone can pay for themselves when checking in. This discount code applies to one rider per check in, so make sure to have everyone in your group add the promo code to their accounts and check in for themselves.

NOTE: If you check in for 5 people, only 1 of those 5 will be free and you will still be charged full price for 4 people. To avoid getting charged full price, we recommend only checking in for yourself and having your friends check in for themselves.

When creating a Fetii account, you will still have to add a payment option. You will not be charged for riding unless you check in for multiple people, tip your driver, or incur a cancellation fee.
